Simplicity means outstanding elegance and attention to detail.

Two central feet and smooth lines that are able to soften up shapes that were already explored in previous models - for both feet and top, which becomes a cantilevered sheet.

A inlaid finish that starts from the base and take shape on the top with an oval curvature, highlighted by a recessed joint.

The main topic of this project is the reinterpretation of the classic upholstered armchair, a traditional product but portrayed in a modern way.

The ambition was to develop a product with a strong personality that would stand out for its iconic and impressive shapes and would become recognisable over time.

A feminine shape designed by a delicate man's hand.

FEDERICA BIASI

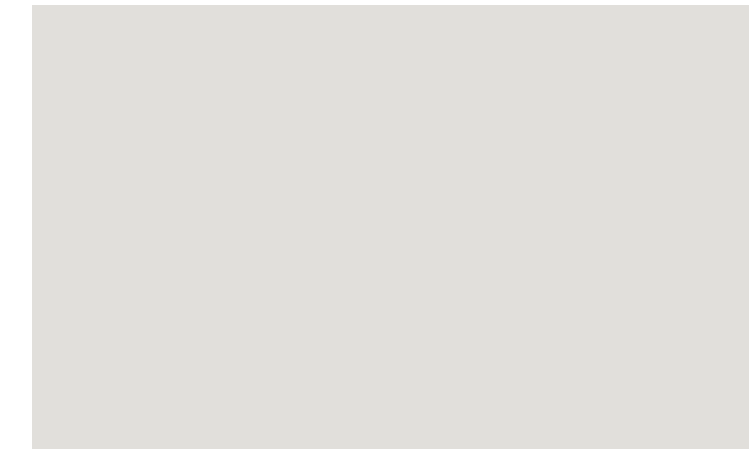

Livrette

Originated from the Livre armchair, Livrette dining chair is born.
The iconic solid wood base, characterized by an oval section, which just like the Livre chair takes inspiration from ancient oriental chairs, evolves to create a flexible dining chair, maintaining its clean lines and remarkable comfort.

DAINELLI STUDIO

Elissa Sectional

Evolution of the Elissa collection, the Sectional version maintains aesthetic style and construction details of the first project designed by Dainelli Studio for Gallotti&Radice, paving the way for new compositions and proportions. The style confirms a meticulous comfort, a sober show-off and soft austerity of a project that portrays a sofa with clear lines and few essential curves. The armrest remains main protagonist and distinctive feature of the product, with its peculiar shape inspired by the architecture of the home of the writer Giovanni Boccaccio, located in the proximity of Florence.

RUG

Resia

DAINELLI STUDIO

Resia is a low pile rug with velvet effect, pleasing both to the eye and to the touch. The distinctive design consists of geometric elements positioned with different pile direction to achieve a change of tonality. The joining of the geometric elements and the perimeter edge are made of matching yarn. Resia is available in two different sizes and three colours. The soft synthetic fibre of which it is composed guarantees an exceptional practicality and a simple maintenance.

Lilas

A project where lines are rich but sober.

The lounge armchair Lilas plays with its filling and overcomes the threshold between seat and backrest to envelop the entire project: from the base to the body, the cushions and armrests.

A Soft-squared shape, enclosed in a strong profile, made of clear and geometric lines, of volumes and of a balance of solid and voids.

Monete

Monete can be functional despite its autonomy from constraints of shape, style or period of time. Before being a coffee table it aims at being a free object, strong, meaningful and unexpected in the shape and material, a small protagonist to be loved or hated but certainly not ignored.

Clemo

MASSIMO CASTAGNA

Clemo

Clemo is the mountain on the Iseo lake, it's where I live and where Ceppo di Grè is quarried, an Italian stone, modern, quietly sophisticated, a material that beautifully complement anything: wood, glass, metal and even other stones.

Clemo is the family of coffee tables that aims at representing that spirit, gracefully simple to allow the material, matt, natural and brushed to stand out and be the protagonist.

Hide&Seek

Hide&Seek is a light room divider, to be positioned in the middle of a room, it's a product that hides something that can be revealed.

The beauty of surprising by showing something that cannot be seen, like a cocktail cabinet, perfect for the 'aperitivo' ritual, that we as Italians love as opportunity to gather and chat with a glass in our hands.

Spectrum

Family of hanging lamps composed of a metal frame containing a light source with a neon effect, in various shapes.

The collection takes inspiration from the research on geometries of the artist Sol Lewitt, creating a 3D presentation where shapes, light and environment interplay. The name 'Spectrum' is a reference to the colourful range originated by a white light hitting a prism.

In this case the lighting element is 'forced' into its core, inside its geometric cage.

PRESIDENT GOLD EDITION 50° ANNIVERSARY (1971-2021)

At work, with style

In 1971 Pierangelo Gallotti designed the President Junior and Senior desks. After 50 years, thanks to its **timeless design**, this product is still fresh and able to create the perfect work station, whether in the office or at home.

To celebrate this monumental achievement, Gallotti&Radice presents a numbered edition of the President desk, which, for the occasion, is portrayed in a 'Gold Edition'.

An exclusive finish applied on glass evokes the **texture of a precious fabric**, due to a **"see-through" effect** obtained by careful hand brushing carried out by our skillful artisans.

Distinctive feature is the iconic **joint** which, for more than 50 years, characterize the Gallotti&Radice collection.

In 2021 the company aims at celebrating the anniversary of the President Junior/Senior by releasing a "gold total look" version.

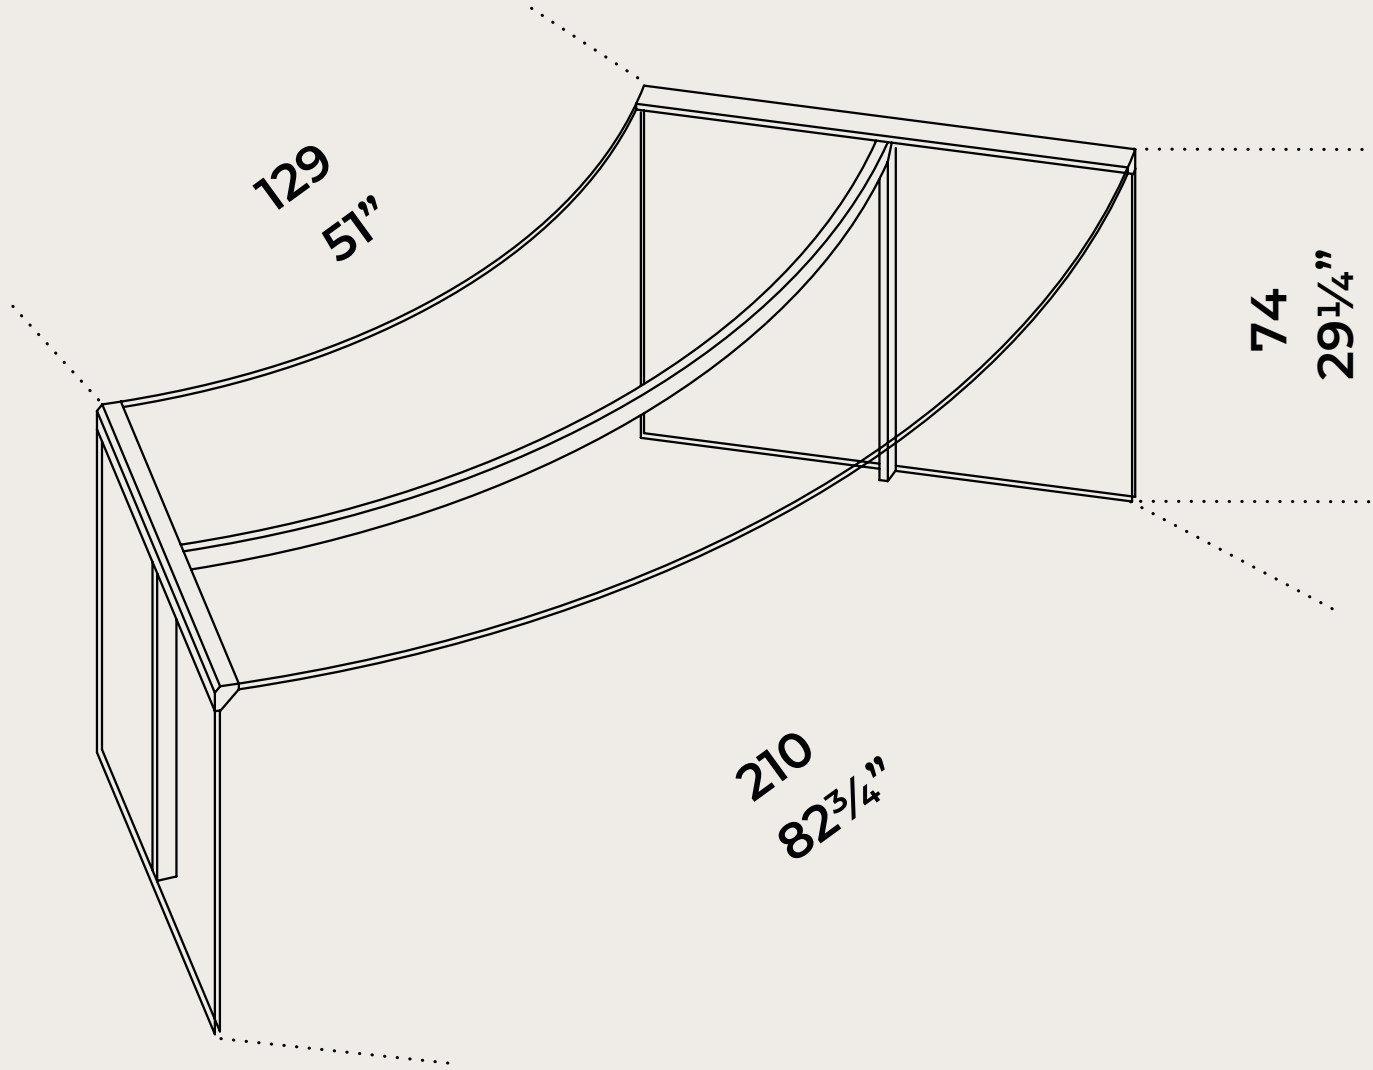

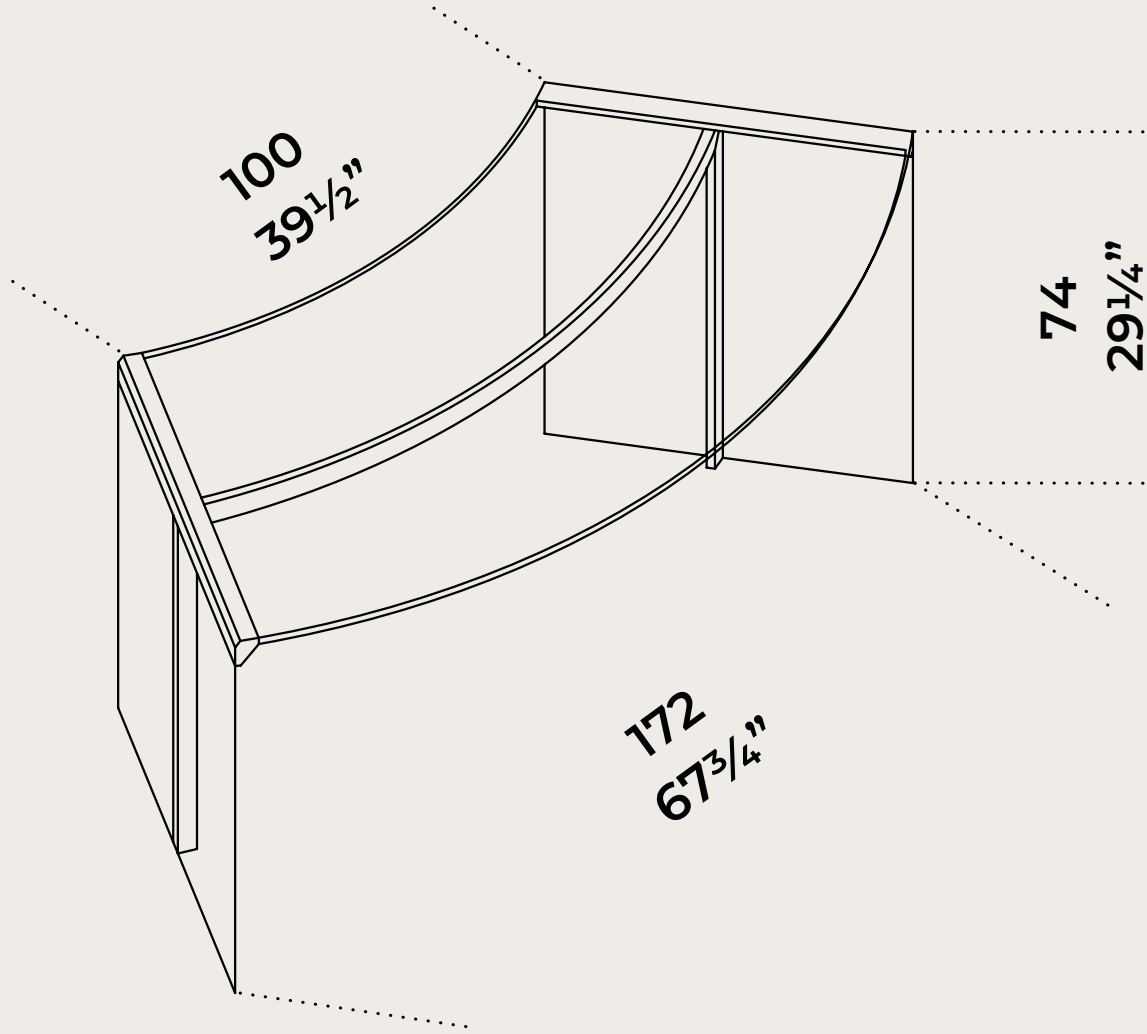

Desk in extralight tempered glass decorated with the exclusive “crisscross gold” finish. Metal parts painted with the exclusive finish “crisscross gold”. For a proper cable management, a ø6cm hole on the top can be arranged upon request. Minimum distance from the edge: 10cm.
